

Mountain Bears Democratic Club was founded in 2004. We are located in the San Bernardino Mountains of Southern California. We hope to do our part to inform and educate the public and bring newcomers to the party by registering new Democrats. The Democratic Party believes that the American Dream should be within the reach of all people. We welcome and encourage people from all walks of life to join us in discussion and debate regardless of one's political affiliations.

#### Coronavirus' true mortality rate is a statistical mystery

To solve it, scientists must know infection totals — and that's not easy

Of all the questions scientists hope to answer about the new coronavirus sweeping across the globe, the most pressing is this: How deadly is it?

The only way to know is to figure out how many people have been infected — and that's the real challenge.

#### China fires officials as infections soar

Beijing steps up efforts at damage control as virus cases increase by 15,152 overnight. Political officials were fired and infection cases skyrocketed in China on Thursday, reminding a nation stuck at home and scientists watching worldwide just how little is known about the coronavirus outbreak that has infected more than 64,000 and killed more than 1,400 people.

#### Spread of propaganda by white supremacists soars

Report says that the rhetoric increasingly stresses 'patriotism' to conceal the hate. Incidents of white supremacist propaganda distributed across the nation jumped by more than 120% between 2018 and last year, according to the Anti-Defamation League, making 2019 the second straight year that the circulation of propaganda has more than doubled.

### HOW TO WRITE GOOD

1. Avoid Alliteration. Always.

Prepositions are not words to end sentences with.

3. Avoid cliches like the plague. They're old hat.

4. Comparisons are as bad as cliches.

5. Be more or less specific.

6. Writers should never generalize.

Seven: Be consistent!

8. Don't be redundant; don't use more words than necessary; it's highly superfluous.

9. Who needs rhetorical questions?

 Exaggeration is a billion times worse than understatement.
